Profile

Experience modernizing an internship management platform at STEG, participating in two GenAI hackathons, and building conversational assistant projects. My projects combine React/Next.js interfaces, Node.js/Express services, language model API integration, and Python development.

Experience

Tunisian Company of Electricity and Gas (STEG) *Aug. 2025 -- Sep. 2025*
Software Development Internship -- Internship Management Platform
Modernized the platform as part of a three-person team.

- Contributed interfaces and dashboards for four user roles, Chart.js visualizations, and interactive filters.
- Improved navigation and responsive design, added pagination, and tested cross-browser compatibility.

Education

National Bachelor's Degree in Software Engineering and Information Systems *Sep. 2024 -- Present*

- École Centrale Supérieure Privée d'Informatique et des Télécommunications

Computer Science Baccalaureate *Jun. 2024*

- Hammam Lif High School

Academic Projects

Tunisian Law AI Assistant -- Tunisian Legal Information *Apr. 2026*
2nd Edition "Coding with Generative AI" Hackathon -- 4th Place

- **Multilingual assistant:** contributed to a team-built legal information assistant with Arabic, French, and English support, including right-to-left layout.
- **Documents and AI:** Next.js/TypeScript app connected to the Groq API; loads legal documents in JSON and Word formats, chunks content, and retrieves relevant passages. **Stack:** Next.js, TypeScript, Tailwind CSS, Groq, Mammoth.

CarDoc AI -- Car Diagnostic Assistant *Apr. 2025*
"Coding with Generative AI" GenAI Hackathon -- IEEE Club, Centrale IT -- 48 hours -- 2nd Place

- **Web application:** contributed to an assistant that suggests diagnostic possibilities from user-reported symptoms; React interface connected to Node.js/Express and the OpenRouter API.
- **Offline Python version:** Streamlit interface with conversation history, spaCy language processing, and a bilingual rule-based engine that requires no API key. **Stack:** React, Vite, JavaScript, Node.js, Express, OpenRouter, Python, Streamlit, spaCy.

Personal Portfolio -- Projects and Experience
Bilingual React portfolio showcasing my projects and skills, with light and dark themes and accessible animations.
Portfolio: khalil-dev916.github.io/portfolio/

Technical Skills

Languages: Python, Java, JavaScript, TypeScript, PHP, SQL, C, C++, HTML5, CSS3.
Web Development: React, Next.js, Node.js, Express, Spring Boot, Tailwind CSS, Chart.js, Vite; responsive interfaces, dashboards, APIs.
Applied AI: OpenRouter, Groq, conversational assistants, document processing with Mammoth; Streamlit, spaCy, rule-based systems.
Data and Tools: SQL, SQLite, Git, GitHub, VS Code, n8n.

Certifications

ISTQB Certification -- Software Testing *Jun. 2026*
DIGITAL SKILLS: Honoris 21st Century Skills Certificate *May 2025*
Introduction to Web Development for Honoris -- Le Wagon *May 2025*
Python Essentials 1 -- Cisco *In Progress*
AWS Certification *In Progress*
